Brad Hagemann, General Manager

Operator in Training (OIT) / Water/Wastewater Operator I/II

Mission Hills Community Services District, Lompoc CA

Job Description

Perform a variety of skilled and semi-skilled work in the operation, maintenance and repair of districts water treatment facility, water pump stations, water storage facilities, water distribution system, sewer lift stations, and the wastewater treatment and collection system.

Essential Duties

The following duties are typical of this classification. Incumbents may not perform all the duties indicated and may be required to perform specific additional or different duties from those set forth below to address changing business needs and practices.

Inspect, maintain, and repair failures in the water distribution system and wastewater collection system.

- Prepare daily and monthly operational reports using forms, Microsoft Office software or the SCADA System
- Maintain facilities including cleaning, painting, and ground maintenance.
- Perform meter installation, replacing and testing of defective or worn water meters including residential, commercial and fire hydrant meters.
- Perform preventive maintenance on districts fire hydrants, water valves, and other distribution components.
- Collect water and/or wastewater samples and interpret test results.
- Operate backhoes, dump trucks, vehicles (w/trailer) and various equipment, materials, and supplies.
- Operate, inspect, and maintain various hand, power and hydraulic tools and equipment.
- Related duties as assigned.
- Maintain a safe working environment.

Minimum Qualifications

Candidates must have a High School diploma or GED and possess a valid California driver license. This position requires availability for callouts outside normal working hours (including weekends and Holidays) and rotation on Call duty. Candidates must reside within 30 minutes of the district.

Candidates should have mechanical and plumbing aptitude and an understanding of and ability to utilize the following concepts: basic water mathematics, worksite and vehicle safety, teamwork.
